Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	2
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>I interviewed residents and staff at the facility and reviewed screening documents of residents which corroborated that there were no residents with this characteristic to be interviewed.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

Yes

No

88. Informal conversations with staff during the site review (encouraged, not required)?

<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>
--	--------------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	0	1	0
Staff-on-inmate sexual abuse	1	0	1	0
Total	2	0	1	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted

115.211	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	<p>Auditor Overall Determination: Meets Standard</p>
	<p>Auditor Discussion</p> <p>The Fargo Residential Transitional Reentry Center (RTRC) for Females is privately operated by Centre Incorporated. The agency’s PREA policy P-19 is titled Sexual Abuse/Assault/Harassment Prevention and Intervention and follows the guidelines of the PREA standards. Policy P-19 specifically states in the opening purpose paragraphs that Centre Inc. mandates zero tolerance towards all forms of sexual abuse. Policy P-19 outlines the agency’s approach for preventing, detecting, and responding to sexual misconduct. There are additional policies that contain more specific information that relates to PREA such as policy P-18 Searches and policy P-23 Transgender Residents. However, policy P-19 is the main PREA policy. The PREA Coordinator holds the title as Director of Operations and has the authority to develop and oversee the efforts of the agency to prevent, detect, and respond to sexual abuse and sexual harassment. The Program Director is responsible for PREA compliance within the facility. The Program Manager supervises Residential Staff who supervise the residents during the day-to-day activities on each unit. The Program Manager assists in the day-to-day PREA related activities, is well-versed in PREA and is an integral part to ensuring PREA compliance. The PREA Coordinator,</p>

	the Program Director/PREA Compliance Manager, and the Program Manager work well together as a team and ensure compliance is achieved and maintained with all PREA standards.

115.212	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Fargo RTRC for Females does not contract for the confinement of residents with an outside entity.

115.213	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Policy PE-34 Staffing Coverage outlines the staffing levels. The facility maintains a staffing binder that has all information regarding their staffing levels, analysis, and plan. The auditor reviewed the Fargo RTRC for Females PREA policies, organization chart, verified the staffing levels through the staffing plan, the staffing plan analysis, the schedule that was provided and verified through direct observation while on the facility tour and throughout the audit period. The facility requires two (2) residential staff on shift from 7AM to 11PM, two (2) residential staff on shift and one must be female, and one (1) female residential staff on shift from 11PM to 7AM. There were no deviations from these minimum staffing levels noted during the audit reporting period. Managers require staff to stay on shift until properly relieved. If a staff calls in, there is an on-call supervisor who is responsible for finding a replacement staff or working the shift. The Fargo RTRC for Females has strong, consistent leadership, a good training program, and a positive culture. Upper-level staff including the Executive Director, the Director of Operations, the Program Director, and the Program Manager have an open-door policy, are available after business hours and fully support PREA and the mission to keep all residents safe. In addition to the residential supervisors that supervise the day-to-day activities of the residents, there are four Case Managers that assist residents in their treatment and reentry goals. There are two Licensed Addiction Counselors that provide counseling necessary for those with substance abuse issues. The facility reviews staffing and camera coverage annually and includes this information in the annual PREA Assessment report that is posted on the website.</p>

115.215	Limits to cross-gender viewing and searches
----------------	--

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Fargo RTRC for Females policy P-18 Searches prohibits cross gender strip searches or cross-gender visual body cavity searches of residents. The policy requires two staff present during any pat search. All staff are properly trained in cross-gender pat search techniques. There must be probable cause for a strip search and it must be approved by the Executive Director. Both female and male staff are on duty at this facility, but the staff are primarily female. Male staff do not perform pat searches. Male staff have been trained in cross-gender search techniques but would only perform a pat search in an exigent circumstance and there have been none. The facility prohibits examination for the sole purpose of determining gender and staff are knowledgeable of correct search procedures for transgender or intersex residents. If the resident’s genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. All staff either stated or demonstrated to the auditor during the interviews that they use the blade or the back of the hand for a cross-gender pat search. This method of search is also used during all same-gender searches. The facility has policies and procedures and physical construction of housing areas that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing them in state of undress. Typically, male staff do not enter the housing wings where the female resident’s sleeping rooms are. If a male staff enters the housing unit of the female residents, they must be accompanied by a female staff and knock on the door and make an announcement. This procedure was verified by the auditor while on site and was consistently stated by all staff and all residents interviewed without exception</p>

115.216	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Fargo RTRC for Females provides residents with disabilities and who are limited English proficient with ways in which to fully participate in protection efforts. The facility has a listing of interpreters to include sign language interpretation. The facility does not use residents to interpret for other residents. The facility is in compliance with the standard. However, their access to interpreters seems a bit cumbersome and may take longer than if they contracted with a pay-as-you go interpretive service that is able to provide an interpreter over the phone for most languages usually within minutes. The auditor recommends contracting with a 24-7 interpretation service that is easily accessible for staff. The interpretive services can</p>

	<p>assist in the intake process, screening process, education on how to report and if need be, translate during the investigative process. Staff work with inmates who may have trouble reading or comprehension due to a disability or cognitive impairment. They read the information and explain it to them at a level they able to understand. These procedures were confirmed during staff interviews.</p>

115.217	Hiring and promotion decisions
	<p>Auditor Overall Determination: Meets Standard</p> <p>Auditor Discussion</p> <p>The Fargo RTRC for Females currently requires during the hiring process that all interviewed staff answer questions regarding any previous sexual misconduct. These questions are asked again during the annual review process. Law enforcement background checks are run upon hire and every five years. This was confirmed by a review of employee files. The facility requires by the policy PE-9 Employee Standards of Conduct, Ethics, and Responsibility that should an employee be charged with, arrested for, or convicted of any felony or misdemeanor, that employee must immediately inform and provide a written report to the Executive Director. The staff are required to read and sign acknowledging this policy annually. The auditor recommended that a continuing duty to report statement be added to their sexual misconduct questionnaire forms that is used during the hiring process and the annual review process. In a review of the records, staff that had previous institutional employers did not always have reference checks that specifically ask previous institutional employers about any substantiated allegations of sexual abuse. The agency has a PREA Request for Information form to be used for this purpose, but it was not completed for two of the staff that met these criteria from the sample of employee records reviewed.</p> <p>CORRECTIVE ACTION: To comply with this standard, the auditor required the Fargo RTRC for Females provide the auditor documentation of asking former institutional employers about substantiated sexual misconduct for those that were missing. On May 25, 2023, the PREA Coordinator provided the requested documentation. In addition, the Human Resource Generalist began an update of the personnel files agency-wide to include a PREA specific tab. Previously, PREA Release of Information forms were filed in a "Miscellaneous" tab which made it difficult to track to ensure compliance. Going forward, the Human Resource Generalist will remind all statewide Program Directors and Program Managers to ensure PREA Release of Information forms are completed during the applicant's fingerprint processing. This reminder will be delivered twice per year during monthly department meetings beginning June 2023.</p>

115.218	Upgrades to facilities and technology
----------------	--

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed the Fargo RTRC for Females policy, video monitoring systems, directly observed the facility and conducted interviews with the Executive Director, the Program Director, the Program Manager and the PREA Coordinator. The facility considers protection of residents and the standards when contemplating upgrades to the facility or in the application of technology. The facility has not completed any major upgrades to either building or monitoring technology since the last audit.

115.221	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed the PREA policy and interviewed the investigators, both administrative and criminal, assigned to conduct investigations. Residents who have been sexually assaulted would be transported to Sanford Health or Essentia Health. There are SANE nurses at the hospitals to conduct the forensic examination. Rape and Abuse Crisis Center provides advocacy services. Evidence protocol is followed both at the facility and through the collection during the forensic examination. The center staff work cooperatively with either the Fargo Police Department or the Cass County Sheriff's Department, and the SANE to ensure all usable physical evidence is gathered. The auditor verified these procedures through interviews and a review of policy.

115.222	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility refers all allegations for investigation. A trained investigator completes preliminary administrative investigations. Both the PREA Coordinator and the Program Director as well other key staff have been trained to conduct administrative investigations. Any incident that is suspected to be criminal is referred to the either the Fargo Police Department or the Cass County Sheriff's Department to conduct any criminal investigation. The investigative policy is contained in section II.D of the PREA policy P-19 which is published on the Center Inc. website at https://www.centreinc.org/prea .

115.231	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The PREA policy P-19 section II.H. governs the facility’s training procedures. The Fargo RTRC for Females uses an online learning management system “Relias” to provide employees on-going PREA training. Staff were knowledgeable in the required competencies such as the characteristics of vulnerable residents, avoiding inappropriate relationships, detecting signs of sexual abuse, correct first responder response - separate, provide care, protect evidence, call for assistance, notify the Program Manager and the on-call duty supervisor, and provide a written report. They watch the video “PREA: What You Need to Know” (Joe) and participate in an online training developed by Relias titled “the Dynamics of Sexual Abuse in Confinement”.</p>

115.232	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>This facility had six volunteers from Runners Against Destructive Decisions (RADD), one job shadow from the Sharehouse, one NDSU student completing research and two volunteers from HeartSprings. There was signed paperwork for their basic PREA education. The only contractors are information (IT) contractors who may have some very limited access to residents. The IT contractors have completed some basic PREA training on the facility’s zero tolerance policy and how to report. They signed forms acknowledging this training and it was verified by the auditor by viewing this documentation and in an interview with one of the IT contractors.</p>

115.233	Resident education
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Fargo RTRC for Females provides extensive PREA information to a resident during the intake process. This information includes their zero-tolerance policy and how to report. During the initial intake process the residential staff goes over the intake packet with them. The intake process includes viewing the video PREA: What You Need to Know, staff going over a PREA information packet with them and pointing out the posters that are located throughout the facility that have reporting information and support and contact information for the Rape and Abuse Crisis</p>

	<p>Center that can provide support services that can assist victims in their recovery process. The residents signed a form acknowledging that they received the Overview for Clients on Sexual Abuse/Assault Prevention and Intervention.</p> <p>Staff were aware that there is a list of interpreters available if a resident does not speak or understand English or uses sign language to communicate. Staff will read the material aloud to residents who may need assistance due to visual impairments, learning disabilities, literacy or comprehension problems or other reasons that require staff to give them specialized training for them to be better able to comprehend the information.</p> <p>There is readily available information posted throughout the facility that outlines how to report and how to contact external resources for both support and reporting. The residents' education was evident by the residents' responses during the interviews. Compliance with this standard was verified through a review of the resident education materials, the signature sheets, interviews with residents and interviews with staff.</p>

115.234	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The investigators for the Fargo RTRC for Females have received specialized training as facility administrative investigators through the North Dakota Department of Corrections and Rehabilitation (ND DOCR) course Investigating Sexual Abuse in a Correctional Setting. The auditor interviewed the PREA Coordinator who has also been trained as an administrative investigator and found him to be well trained meeting all the requirements of the standard. In addition, the auditor interviewed the Sergeant with the Fargo Police Department who either would be assigned or assign another detective sexual assault cases for the Fargo Center Inc. male and female facilities. He stated that sexual abuse investigators are trained as all detectives with basic criminal investigations training as well more specific training in sexual assault investigations to include interviewing sexual abuse victims, Miranda and Garrity warnings, evidence collection and are aware of the criteria to substantiate a case for used by the facility for an administrative investigation and for prosecution referral. These interviews and a review of training documentation demonstrated compliance with this standard.</p>

115.235	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

	<p>There are no full or part-time medical or mental health care practitioners who work within the Fargo RTRC for Females. The resident chooses their private provider from those available within the community. Typically, Sanford Health, Essentia Health, North Dakota Health and Human Services or private physicians or therapists provide these services. These facilities are also utilized by the facility in the event of a crisis or emergency situation.</p>

115.241	Screening for risk of victimization and abusiveness
	<p>Auditor Overall Determination: Meets Standard</p>
	<p>Auditor Discussion</p>
	<p>The Fargo RTRC for Females completes a screening process upon intake. The screening form has the appropriate questions as required by the standard to objectively screen each resident upon arrival. Staff confirmed that they are continually reassessing a resident’s status. The residents meet their case manager within 72 hours of arrival, and they are reassessed. They specifically would reassess if any staff made a referral or request, or if there was an incident of sexual abuse or receipt of additional information that has bearing on their risk of sexual victimization or abusiveness. Information is maintained within a protected directory. Staff are required to follow a confidentiality agreement.</p>

115.242	Use of screening information
	<p>Auditor Overall Determination: Meets Standard</p>
	<p>Auditor Discussion</p>
	<p>The Fargo RTRC for Females screening process is used to determine placement within their housing areas. There are enough housing options to keep separate if the screening indicated this was necessary. All housing assignments are done on a case-by-case basis considering the resident’s own views of safety. Residents have private restrooms with a shower, sink, toilet and locking doors for privacy.</p>

115.251	Resident reporting
	<p>Auditor Overall Determination: Meets Standard</p>
	<p>Auditor Discussion</p>
	<p>The auditor interviewed staff and residents, reviewed policy and toured the facility. The Fargo RTRC for Females provides multiple internal ways for residents to</p>

privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Staff accepts reports made verbally, in writing through grievances or notes to the administrator, anonymously, and from third parties. The staff promptly documents any verbal reports. All residents have unrestricted access to phones in the dining hall. Residents are provided the address to the NDDOCR PREA Coordinator and Bureau of Prisons (BOP) residents are provided the phone number and address to the Regional Residential Reentry Manager. The auditor tested these systems. Both indicated they accept anonymous reporting, and they would immediately report back to the administrator of the Fargo RTRC for Females any reports of sexual abuse and sexual harassment. The residents can request postage and give their letters to any staff or mail them in the community while they are out of the building. Most residents have cell phones and there is a bank of phones in the dining hall. The call is a free call and is not recorded. There are a few ND DOCR placed residents whose one external reporting option is to send a letter to the ND DOCR, yet they are unable to leave the building. To protect the anonymity of these residents if they wish to report anonymously, the auditor recommends that they develop a way to post a free letter without having to ask staff. These processes, phone numbers and addresses are provided to the resident during the intake process and are located on posters throughout the building.

CORRECTIVE ACTION: The auditor required that the facility develop a method for ND DOCR referred residents to be able to mail a letter to the ND DOCR PREA Coordinator, an external reporting entity for these residents, in a manner that is free and allows them to remain anonymous. Centre Inc. developed new language for their PREA Reporting Posters that states, "Upon request at any time, staff will provide a blank envelope with postage to all residents. Staff will not inquire about the purpose of this request. This is at no cost to the resident".

115.252	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed the Policy P-7 Grievance/Administrative Remedy regarding using the grievance system to report an allegation of sexual abuse, the handbook, and conducted staff and resident interviews. The policy section regarding administrative remedies mirrors the wording of Standard 115.252. The Fargo RTRC for Females does not impose a time limit on when a resident may submit a grievance regarding an allegation of sexual abuse. They do not require a resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse. They ensure that a resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint. They issue a final decision on the merits of any portion of a

	<p>grievance alleging sexual abuse within 90 days of the initial filing of the grievance.</p> <p>The policy does not allow residents to submit grievances for other residents in other types of grievances but does for an incident alleging sexual abuse. Policy P-7 has the words verbatim from the standard with regard to using the grievance process to report an allegation of sexual abuse. Third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, are permitted to assist residents in filing requests for grievances relating to allegations of sexual abuse, and are also be permitted to file such requests on behalf of residents. They have established procedures for the filing of an emergency grievance when the resident is subject to a substantial risk of imminent sexual abuse.</p> <p>After receiving an emergency grievance alleging a substantial risk of imminent sexual abuse, the grievance is immediately forwarded to the Administrator for immediate corrective action and provides an initial response within 48 hours and issues a final decision within five calendar days. The initial response and final decision documents their determination whether the resident is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The Fargo RTRC for Females may discipline a resident for filing a grievance related to alleged sexual abuse only where the administrator demonstrates that the resident filed the grievance in bad faith.</p>

115.253	Resident access to outside confidential support services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Fargo RTRC for Females has a Memorandum of Understanding with the Rape and Abuse Crisis Center (RACC) Fargo to provide confidential support services. Residents are provided information regarding outside confidential support services during the intake process. They are given a handbook with this information to refer to throughout their stay. There are posters posted throughout the facility with the address and phone number to the RACC for advocacy and support services. The auditor spoke with a counselor from RACC using a resident phone and the phone number on the poster near the phone and therefore verified that it was a free call and that they would provide both emotional support services and advocacy services to any resident who calls. The auditor also spoke with the director of RAAC who stated that they have worked with Centre residents in the past and the facility does work cooperatively with them to ensure residents obtain the services they need in a confidential manner.</p>

115.254	Third party reporting
	Auditor Overall Determination: Meets Standard

	Auditor Discussion
	The facility has Third Party Reporting information in their policy, the reporting information is posted throughout the facility, and in the resident handbook given at intake. There is contact information on their website at https://www.centreinc.org/prea that can be used by third parties for PREA reporting.

115.261	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility requires by their PREA policy that all staff are to immediately report any knowledge, suspicion or information received related to sexual abuse/harassment incidents, retaliation and staff negligence that may have contributed to such incidents. There are no on-site medical or mental health staff. There are no residents under 18 years of age. If the alleged victim is considered a dependent adult under State law, the facility will report the allegation to the Department of Health and Human Services under applicable mandatory reporting laws. Staff are required to make any reports to the supervisor or on-call management staff. Any verbal reports are followed by a written PREA Incident Report form that is submitted to the Program Director and the PREA Coordinator. The PREA Coordinator then assigns an investigator. Staff interviews confirmed their responsibility to report and to maintain that information in confidence. The PREA policy requires that an investigator is assigned to all allegations of sexual abuse and sexual harassment. All staff during interviews stated that they would report directly to the Fargo Police Department if the situation warranted.

115.262	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility requires all staff to take immediate action to protect the resident from imminent sexual abuse. All staff understand that “immediate” means when the response is needed – that could mean within minutes if the abuse was recent, or it could mean before the end of the shift for incidents in which an abuse was reported that occurred in the distant past.

115.263	Reporting to other confinement facilities
----------------	--

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with staff confirm that action is taken upon receiving an allegation of sexual abuse while a resident was at another facility. Such action is initiated no later than 72 hours and actions are documented. These steps were also noted in the review of the policy. Incidents will be reported to the Resident Manager so that it can be reported to the head of the facility in which the abuse may have occurred. There were four reported incidents during this audit reporting period. There was documentation to verify that they were reported to the facilities as required per the standard.

115.264	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	A review of policy and interviews with staff verified their process to provide assistance; separate alleged victim/abuser; preservation and protection of evidence by securing the scene including that the victim and the abuser do not take any actions that could destroy any physical evidence. The first responder then notifies the appropriate people so that the coordinated response can continue.

115.265	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The coordinated response plan is referenced in the PREA policy and is documented within the facility's coordinated response plan. The facility has posted coordinated response plans throughout their facility and many staff referenced them during discussions on the facility coordinated response plan. The coordinated response plan documents the coordinated actions among first responders, investigators, facility administrators, victim's centers, health care providers and law enforcement. The interviews with the Resident Director, Resident Manager, the PREA Coordinator, the center staff, the Rape and Abuse Crisis Center, the SANE program at Sanford Health, and the Fargo Police Department verified the actions outlined within the policy. Once the administrator or the Fargo Police Department are notified, the coordinated response includes the individual being taken to the hospital for a forensic examination when applicable, an advocate is provided from Rape and Abuse Crisis Center for emotional support services and the investigator is notified so that the victim does not have to portray the circumstances of the assault repeatedly

	to multiple people.

115.266	Preservation of ability to protect residents from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Fargo RTRC for Females staff will remove alleged staff sexual abusers from contact with residents pending the outcome of the investigation. The Fargo RTRC for Females staff are not represented by a union and therefore there is no collective bargaining agreement that limits the agency's ability to remove alleges staff sexual abusers from contact with residents.

115.267	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All staff are charged with monitoring for retaliation with oversight by the Program Manager and ultimate responsibility by the Program Director. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation; appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include housing changes, removing contact of alleged staff/resident abusers and emotional support services for those who fear retaliation. Interviews confirmed duties and responsibilities. The Program Manager monitors for up to 90 days and beyond 90 days if the initial monitoring indicates a continuing need and documents the monitoring efforts in a form attached to the investigative documents. These steps are properly documented in the PREA policy.

115.271	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor interviewed staff and the investigators. The auditor reviewed investigative files and interviewed the investigators to determine that investigations are not terminated should the source of the allegation recant. Should criminal prosecution be considered, the investigator coordinates with the state's attorney.

	<p>Polygraph tests are not used for victims during their investigations. All written reports are retained for as long as the alleged abuser is incarcerated or employed by the facility plus five years. Investigations will not be terminated due to the departure of an alleged abuser or victim. These steps are properly documented in the PREA Policy under the investigation section. The investigations include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports, which will include physical/testimonial evidence, credibility assessments and investigative facts and findings. The Program Director, the Program Manager and the PREA Coordinator are trained administrative investigators. Criminal investigations will be conducted by a trained investigator from either the Fargo Police Department or the Cass County Sheriff's Department.</p>

115.272	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The investigators are knowledgeable as to their role. The Fargo RTRC for Females uses no standard higher than the preponderance of evidence in making final determinations of sexual abuse/harassment - meaning that the facility can take necessary actions when at the conclusion of the investigation the evidence leads them to believe the incident more than likely occurred (greater than 50%). The Program Director and the PREA Coordinator were able to explain very accurately the evidentiary standard of a preponderance of evidence.</p>

115.273	Reporting to residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed staff and the investigators. The PREA policy states the resident will be informed as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded as well as when certain events occur as indicated in 115.273(c) and (d). Investigations reviewed documented that they provided a notice to resident as to the outcome of the investigation.</p>

	Auditor Discussion

	<p>The auditor interviewed staff, the Program Director, the Program Manager and the PREA Coordinator and reviewed PREA policy P-19. Termination is the presumptive disciplinary sanction for staff that have engaged in sexual abuse.</p> <p>Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.</p> <p>All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated, if not for their resignation, are reported to the Fargo Police Department, unless the activity was clearly not criminal. There have been no staff terminations during this audit reporting period due to either sexual harassment or failure to properly supervise or enforce the rules, which resulted in sexual misconduct between residents.</p>

If findings of resident-on-resident sexual abuse are substantiated, administrative sanctions will be administered following the formal disciplinary processes and applied commensurate with the level of infractions. Some examples given are loss of privileges. More serious infractions would be transferal to another more secure facility and additional criminal charges.</p>
